# INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2005/004964

## Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:  
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

## Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

The technical feature common to the inventions of claims 1-5 is "a reinforcement member having a section extending to the root of a seal lip."

However, the technical feature is not novel because the search has revealed that the reinforcement member is disclosed in JP 2003-42185 A (NOK Corp.), 13 February, 2003 (13.02.03), column 1, line 46 to column 2, line 4; column 3, lines 16 to 43; column 5, lines 12 to 32; column 5, line 48 to column 6, line 28; Figs. 2, 3 (Family: none).

Consequently, the reinforcement member makes no contribution over the prior art; therefore the technical feature is not a special technical feature (continued to extra sheet)

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☒ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.  
☐ No protest accompanied the payment of additional search fees.

within the meaning of PCT Rule 13.2, second sentence.

Further, there is no other common technical feature that can be considered as a special technical feature within the meaning of PCT Rule 13.2, second sentence.
